

# MORTAR PROCESSING SYSTEM

## MORTAR GUN 150S

Gema©k

Innovative special tool consists of a supporting trestle with a mortar gun. The mortar tube of the Mortar Gun can be taken out and filled under the Gema©k Mortar Mixing Tap or with the scoop from a tub or wheelbarrow. To apply the mortar evenly, the pressure disc has a battery-powered motor, that can be set to a variable speed. A full type 150S mortar tube is good for laying approx. 6m of bricks based on 2 tracks (for a 5mm joint and a wall 10cm thick).

**Strong battery-powered piston**  
Work freely, no hoses and/or cables

**Detachable mortar tube**  
approx. 3 ltr

**Stainless Steel  
Mortar Gun holder  
and carrying trestle**  
Quick and easy to keep clean

**Stainless Steel nozzles**  
Quickly and easily swapped

Empty; approx. 6,2 kg  
Filled; max. approx. 15 kg
